CONNECTING TO COMMUNITY POWER, AMPLIFYING IMPACT

When your workplace becomes a United Way community engagement partner, everyone benefits.

Educational opportunities and connection to community resources for employers & employees. United Way staff, partners and volunteers visit workplaces throughout the year as guest speakers and presenters to help you better understand -- and respond to -- local needs.

Philanthropic advising and amplifying the impact of every dollar invested in the community. Workplace campaigns are easier than ever with United Way's convenient giving platform. We help direct giving to local efforts addressing the community's highest priorities and we triple the impact of every donation employees make through the power of collaboration and leveraging volunteers.

Strengthening workplace culture through connection to community & meaningful volunteering. United Way campaigns are a team-building opportunity and a way for employees to engage with each other and the local community. United Way can connect employees with volunteer opportunities addressing local needs.

"Being a community engagement partner with United Way helps **Northwestern Medical Center** make a positive impact on the community we serve including our patients as well as our employees and their families."

-Jonathan Billings, Interim CEO of Northwestern Medical Center
